## **For Immediate Release**

### **Nash County Health Department Releases Updated Food, Lodging, & Institutional Sanitation Webpage with Direct Access to Inspection Results**

(Nashville, NC)—The Nash County Health Department has launched an updated Food, Lodging, & Institutional Sanitation webpage that now includes a direct link to sanitation inspections completed in Nash County. Residents can view inspection results for restaurants, food trucks, school and hospital kitchens, lodging facilities, child care centers, and other permitted establishments at:

<https://nashcountync.gov/389/Food-Lodging-Institutional-Sanitation>

“The community deserves clear, timely information about the places where we eat, stay, and receive care,” said Bill Hill, Nash County Health and Human Services Director. “By placing inspection results a single click away, we are strengthening transparency and supporting informed choices for families across Nash County.”

The updated page also centralizes program information, including permitting and compliance resources. “Our Environmental Health team works daily with operators to maintain safe, healthy environments,” Hill added. “If residents have questions about inspection findings or food safety, we encourage them to reach out directly to our staff.”

- Public inquiries to Environmental Health:
  - Phone: 252-459-9829
  - Email: [envsupport@nashcountync.gov](mailto:envsupport@nashcountync.gov)

Inspection scoring information is available on the updated webpage. For additional details about regulations, permitting, or to report a concern, please visit the page and contact Environmental Health using the information above.

### **About the Nash County Health Department**

The Nash County Health Department promotes and protects the health of all who live, work, and visit Nash County through prevention, education, and high-quality public health services, including clinical care, environmental health, and community health initiatives.
